Whenever practicable, the enforcement officer shall cause photographs to be made of the premises and shall file the same in the office of the City Clerk-Treasurer.
- (2) **Summary Abatement.**

If immediate personal service cannot be made, a copy of such notice shall be posted on the premises in a location likely to attract the attention of the owner or occupant thereof, as well as direct mail notice to the last known owner of said property. Such notice shall direct the person, company or corporation causing, permitting, or maintaining such hazard, or owner or occupant of the premises to start abatement within twenty-four (24) hours and complete such abatement within thirty (30) days, and shall state that unless such hazard is so abated, the City may cause the same to be abated and will charge the cost thereof to the owner, occupant, or person causing, permitting or maintaining the hazard.
 - b. **Abatement by City.** If the health or safety hazard is not abated within the time provided or if the owner, occupant or person causing the hazard cannot be found, the enforcement officer in the case of health hazards and other causes shall cause the abatement or removal of such public hazards.

- (a) **Natural Lawn/Landscape Defined.** "Natural lawn" or "natural landscape" as used in this Section shall include common species of grass and wild flowers native to North America which are designed and purposely cultivated to exceed eight (8) inches in height from the ground. Specifically excluded in natural lawns are the noxious grasses and weeds identified in Section 8-1-4 of this Chapter and areas part of a designated stormwater detention/retention area with its own City-approved management plan. The growth of natural landscaping in excess of eight (8) inches in height from the ground surface on non-agricultural lots or parcels of land three (3) acres or under (as classified under the City Zoning Code) shall be prohibited within the City of Owen corporate limits unless a Natural Lawn Management Plan is approved and a permit is issued by the City as set forth in this Section. Natural landscaping shall not contain litter or debris and shall not harbor undesirable wildlife, vermin or pests.
- (b) **Natural Landscape Management Plan Defined.**
- (1) Natural Landscape Management Plan as used in this Section shall mean a written plan relating to the management and maintenance of a natural landscape which contains the street address or a legal description of the property where the proposed natural landscape is being requested, a statement of intent and purpose for the lawn, a detailed description of the vegetational types, plants and plant succession involved, and the specific management and maintenance techniques to be employed.
 - (2) Applications for a permit shall require a written Management Plan of the lawn or area containing the following:
 - a. Legal description of the property to have the natural lawn or naturalized area and the name(s) and address(es) of the title holders and/or managers thereof;
 - b. Statement of intent and purpose for the lawn or area;
 - c. General description of the vegetation type, plants, and plant succession involved and management and maintenance techniques to be employed;
 - d. Statement that the lawn or area shall not contain litter or debris;
 - e. Gardening, botanical authorities and references relative to purpose of the project.
 - (3) a. Property owners who wish to plant and cultivate a natural landscape must submit their written plan and related information to the City. "Property Owner" shall be

defined to include the legal title holder and/or the beneficial owner of any such lot according to most current City records. Natural Landscape Management Plans shall only indicate the planting and cultivating of natural landscapes on property legally owned by the property owner.

- b. Applicants are strictly prohibited from developing a natural landscape on any City-owned property including street rights-of-way. This shall include at a minimum property located between the sidewalk and the street or a strip not less than ten (10) feet adjacent to the street where there is no sidewalk whether the area is under public or private ownership.
- (4) Natural landscapes shall not be permitted within five (5) feet of the side or rear setback to an abutting property owner's land unless waived in writing by the abutting property owner on the side so affected. Such waiver is to be affixed to the Lawn Management Plan filed with the City Clerk-Treasurer. Such waiver may be revoked, in writing, by the abutting property owner at a later time, a copy to be filed with the permittee and the City Clerk-Treasurer.
 - (5) All drainage swales shall be free of plantings and maintained in accordance with Section 8-1-4 above. In addition, a five percent (5%) area exclusive of the setback area shall be left open for maintained paths. The setback area shall have a height of no more than eight (8) inches, excluding trees and shrubs.
 - (6) Any subsequent property owner who abuts an approved natural landscape may revoke the waiver thereby requiring the owner of the natural landscape to remove the natural lawn that is located in the five (5) foot section abutting the neighboring property owner. Such revocation shall be put in writing and presented to the City Clerk-Treasurer by the subsequent abutting property owner. Upon receiving the written request to revoke the original waiver, the Common Council shall contact the owner of the approved natural landscape and direct the owner to remove the natural landscape located in the ten (10) foot section abutting the neighboring property owner. The Common Council shall revise the approved Natural Lawn Management Permit accordingly. The owner of the approved landscape lawn shall be required to remove the five (5) foot section abutting the neighboring property owner within twenty (20) days of receipt of the written notification from the City provided the notification is received sometime between May 1 and November 1. Property owners who receive notification from the City between November 1 and April 30 shall be required to remove the ten (10) foot section abutting the neighboring property owner no later than May 20 following receipt of the notification.
- (c) **Application Process.**
- (1) Property owners interested in applying for permission to establish a natural landscape shall file an application with the City Clerk-Treasurer. The completed application shall include a Natural Landscape Management Plan. Upon submitting a completed application, a fee as prescribed in Section 1-3-1 will be assessed by the City. Upon

receiving payment, copies of the completed application shall be mailed by the City to each of the owners of record, as listed in the Office of the City Assessor, who are owners of the property situated wholly or in part within one hundred (100) feet of the boundaries of the properties for which the application is made. If within fifteen (15) calendar days of mailing the copies of the complete application to the neighboring property owners the City receives written objections from fifty-one percent (51%) or more of the neighboring property owners, the City shall deny the application. Neighboring property owners shall be defined as all those property owners who are located within one hundred (100) feet of the proposed natural landscape site.

- (2) If the property owner's application is in full compliance with the Natural Landscape Management Plan requirements and less than fifty-one percent (51%) of the neighboring property owners provide written objections, the Common Council may issue permission to install a natural landscape. Permits shall be granted for an indefinite period, but may be revoked for failure to comply with the Management Plan.
- (d) **Application for Appeal.** The property owner may appeal the City Clerk-Treasurer's decision to deny the natural lawn permit request to the Common Council at an open meeting. All applications for appeal shall be submitted within fifteen (15) calendar days of the notice of denial of the Natural Lawn Management Plan. (f) **Safety Precautions For Natural Grass Areas.**

As a condition of receiving approval of the natural landscapes permit, the property owner shall be required to cut the natural lawn within the three (3) days upon receiving written direction from the Fire Chief.
- (2) Natural landscapes shall not be removed through the process of burning unless stated and approved as one of the management and maintenance techniques in the Landscape Management Plan, and appropriate City open burning permits have been obtained. The Fire Chief shall review all requests to burn natural landscapes and shall determine if circumstances are correct and all applicable requirements have been fulfilled to insure public safety. Burning of natural landscapes shall be strictly prohibited unless a written permit to burn is issued by the Fire Chief. Failure to file an application for appeal within the fifteen (15) calendar days shall result in the revoking of the Natural Landscape Management Plan Permit. All written applications for appeal filed within the fifteen (15) calendar day requirement shall be reviewed by the Common Council in an open meeting. The decision rendered by the Common Council shall be final and binding.

(h) **Public Nuisance Defined – Abatement After Notice.**

- (1) The growth of a natural landscape as defined in this Section shall be considered a public nuisance unless a Natural Landscape Management Plan has been filed and approved and a permit is issued by the City as set forth in this Section. Violators shall be served with a notice of public nuisance by certified mail to the last-known mailing address of the property owner.
- (2) If the person so served with a notice of public nuisance violation does not abate the nuisance within ten (10) days, the Enforcement Officer may proceed to abate such nuisance, keeping an account of the expense of the abatement, and such expense shall be charged to and paid by such property owner. Notice of the bill for abatement of the public nuisance shall be mailed to the owner of the premises and shall be payable within ten (10) calendar days from receipt thereof. Within sixty (60) days after such costs and expenses are incurred and remain unpaid, the City Clerk-Treasurer shall enter those charges onto the tax roll as a special tax as provided by state statute.
- (3) The failure of the City Clerk-Treasurer to record such claim or to mail such notice or the failure of the owner to receive such notice shall not affect the right to place the City expense on the tax rolls for unpaid bills for abating the public nuisance as provided for in this Section.

(i) **Penalty.**

- (1) Any person, firm or corporation which does not abate the nuisance within the required time period or who otherwise violates the provisions of this Section shall be subject to the general penalty found in Section 1-1-7.
- (2) In addition to any penalties herein provided, the City may issue stop work orders upon owners of lots where work is unfinished under a previously issued permit for any violation of this Section.

Sec. 8-1-6 Regulation of Length of Lawn and Grasses.

(a) **Purpose.**

- (1) **General Intent.** This Section is adopted due to the unique nature of the problems associated with lawns, grasses and noxious weeds being allowed to grow to excessive length in the City of Owen. Except as provided in Section 8-1-5 governing natural

landscapes, the owner or occupant of any lot or parcel in the City which is three (3) acres or less in area shall install and maintain landscaping, plantings and other decorative surface treatments, including turf grass, so as to present an attractive appearance in all yard areas in accordance with generally accepted landscaping practices in Wisconsin. Lawns shall be maintained to a height not to exceed eight (8) inches. Plantings shall be maintained so as not to present hazards to adjoining properties or to persons or vehicles traveling on public ways and shall be maintained so as to enhance the appearance and value of the property on which located and thereby the appearance and value of the neighborhood and the City of Owen.

- (2) **Definitions.** The terms used in this Section and Section 8-1-5.
- a. **Turf Grass.** Grass commonly used in regularly cut lawns or play areas such as, but not limited to, blue grass, fescue and rye grass blends.
 - b. **Natural Lawn.** Any land managed to preserve or restore native Wisconsin grasses and forbes, native trees, shrubs, wildflowers and aquatic plants.
- (b) **Public Nuisance Declared.** The Common Council finds that lawns, grasses and noxious weeds on non-agricultural lots or parcels of land three (3) acres or under, as classified under the City Zoning Code, within the City of Owen which exceed eight (8) inches in length adversely affect the public health and safety of the public in that they tend to emit pollen and other discomfiting bits of plants, constitute a fire hazard and a safety hazard in that debris can be hidden in the grass, interferes with the public convenience and adversely affects property values of other land within the City. For that reason, any non-agricultural lawn, grass or weed on a lot or other parcel of land three (3) acres or under in size which exceeds eight (8) inches in length is hereby declared to be a public nuisance, except for property located in a designated floodplain area and/or wetland area, where the lawn, grass or weed is part of a natural lawn/landscape approved pursuant to Section 8-1-5 above, or areas part of a designated stormwater detention/retention area with its own City-approved management plan.
- (c) **Nuisances Prohibited.** No person, firm or corporation shall permit any public nuisance as defined in Subsections (a) or (b) above to remain on any premises owned or controlled by him/her within the City.
- (d) **Inspection.** The Weed Commissioner or his/her designee shall inspect or cause to be inspected all premises and places within the City to determine whether any public nuisance as defined in Subsections (a) or (b) above exists.
- (e) **Abatement of Nuisance.**
- (1) If the Weed Commissioner shall determine with reasonable certainty that any public nuisance as defined in Subsections (a) or (b) above exists, the Weed Commissioner shall immediately cause written notice to be served that the City proposes to have the lot grass or lawn cut so as to conform with this Section and Section 8-1-5.
 - (2) The notice shall be mailed or served on the owner of the lot or parcel of land or, if he/she is not known and there is a tenant occupying the property, then to the tenant.

8-1-6

- (f) **Due Process Hearing.** If the owner believes that his/her grasses or weeds are not a nuisance, he/she may request a hearing before the Common Council. To be eligible, the request for said hearing must be made in writing to the City Clerk-Treasurer's office within the five (5) days set forth in the Weed Commissioner's notice. Upon application for the hearing, the property owner must make a deposit as prescribed in Section 1-3-1. If a decision is rendered in the property owner's favor, the deposit will be returned to the property owner. If the property owner fails to appear for the hearing or if the decision is rendered against the property owner, the deposit shall be forfeited and applied to the cost of City personnel abating the nuisance, if necessary. When a hearing is requested by the owner of the property, a hearing by the Common Council, or committee thereof, shall be held within seven (7) days from the date of the owner's request. The property in question will not be mowed by the City until such time as the hearing is held by the Common Council. At the hearing, the owner may appear in person or by his/her attorney, may present witnesses in his/her own behalf and may cross-examine witnesses presented by the City as well as subpoena witnesses for his/her own case. At the close of the hearing, the Common Council shall make its determination in writing specifying its findings, facts, and conclusions. If the Common Council, or committee thereof, determines that a public nuisance did exist, the Common Council shall order the Weed Commissioner to mow the property in question unless the property has been mowed by the owner within forty-eight (48) hours of the Common Council's decision. If the owner does not abate the nuisance within the described forty-eight (48) hours, the Weed Commissioner shall cause the same nuisance to be abated and cost in excess of the forfeited fee assessed accordingly.
- (g) **City's Option To Abate Nuisance.** In any case where the owner, occupant or person in charge of the property shall fail to cut his/her lawn, grass or weeds as set forth above, then, and in that event, the City may elect to cut said lawn, grass or weeds as follows:
- (1) The written notice required in Subsection (e) shall inform said person that in the event of his/her failure to abate the nuisance within the prescribed time, the City shall abate the same and the cost thereof shall be assessed to the property owner as a special charge.
 - (2) The City shall cut or cause to be cut all grass and weeds from the subject's property and shall charge the expenses of so doing at a rate as established by the Common Council, with a minimum charge of Fifty Dollars (\$50.00). The charges shall be set forth in a statement to the City Clerk-Treasurer who, in turn, shall mail the same to the owner, occupant or person in charge of the subject premises. If said statement is not paid in full within thirty (30) days thereafter, the City Clerk-Treasurer shall enter the charges in the tax roll as a special tax against said lot or parcel of land, and the same shall be collected in all respects like other taxes upon real estate, or as provided under Sec. 66.0627, Wis. Stats.

Sec. 8-1-7 Compulsory Connection to City Sewer and Water System.

(a) **When Required.**

- (1) Whenever a sewer or watermain becomes available to any building used for human habitation, the owner of the property upon which the building is located shall connect the building to such main or mains in the manner prescribed by law, except the Common Council may defer connection to such water or sewer main or mains for those properties which have existing operable septic systems or wells at the time of annexation, or whose construction was permitted by the City of Owen due to exceptional circumstances unique to the property.
- (2) In the event other municipal ordinances also address this subject, the most restrictive provision shall be applicable. It is a policy of the City of Owen that the general health and welfare of its citizens is best protected through the citizens' use of a municipal sewer and water system, and that the operational and economic viability of such a system depends on the use and fiscal support by such users.

(b) **Notice; Payment.**

- (1) The owner of any parcel of land adjacent to a water or sewer main upon which there exists a need for water supply, or sewer service, whether now or in the future, and for whatsoever reason, or in a block through which such system is extended shall connect the available water or sewer main/system within one hundred eighty (180) days of notice in writing from the City to so connect. Upon failure to do so, the City may cause such connection to be made and billed to the property owner for such costs. Such costs may include, without limitation, the cost of disconnecting any private wells so as to provide for adequate cross-connection controls within the municipal water system. If such costs are not paid within thirty (30) days of billing to the property owner by the City, such costs shall be assessed as a special tax lien against the property; however, that the owner may, within thirty (30) days after the completion of the work, file a written option with the City Clerk-Treasurer stating that he/she cannot pay such amount in one (1) sum and ask that there be levied in not to exceed five (5) equal installments and that the amount shall be so collected with interest at the rate of twelve percent (12%) per annum from the completion of the work, the unpaid balance being a special tax lien, all pursuant to Sec. 144.06, Wis. Stats.
- (2) In lieu of the above, the City, at its sole option, may impose a penalty for the period that the violation continues, after ten (10) days written notice to any owner failing to make a connection to the municipal water or sewer system in an penalty amount to be as great as the current average residential user cost plus interest for administrative cost per month for each residential unit equivalent for the period in which the failure to connect continues, and upon failure to make such payment said charge shall be assessed as a special tax lien against the property, all pursuant to Sec. 144.06, Wis. Stats.

8-1-7

- (3) This Section ordains that the failure to connect to the water or sewer system is contrary to the minimum health standards of said City and fails to assure preservation of public health, comfort, and safety of said City.
- (c) **City May Cause Connection at Expense of Owner.** In the alternative to Subsection (b), the owner or his/her agent fails to comply with the notice of the City within ten (10) days of service or mailing thereof, the Building Inspector or Public Works Director may cause connection to be made and the expense thereof shall be assessed as a special charge against the property.
- (d) **Privies, Cesspools, Etc., Prohibited After Connection With Sewer.** After connection of any building used for human habitation to a sewer main, no privy, cesspool or waterless toilet shall be used in connection with such human habitation.

Sec. 8-1-8 Unhealthy, Hazardous or Unsightly Materials on Public or Private Property.

- (a) **Inspections.**
